会員の方へ ISFTD 入会のお誘い

日本高次脳機能障害学会理事長 三村 将

International Society for Frontotemporal Dementias (ISFTD)という国際学会の入会と特典のご案内を国立研究開発法人国立精神・神経医療研究センター病院 臨床検査部 部長の高尾昌樹先生からいただきました。本学会は、2年に1回国際会議が開催され、日本からも多数の方が参加されています。2018年にはシドニーで開催され、出席された方もおられると思います。日本では池田学理事と高尾昌樹先生が executive committee になっています。

臨床、基礎、病理、ケアと幅広い学会で、世界的にFTDの分野を代表する各国の研究者が参加されています。今回、本学会の年会費が大幅にディスカウントされたこと、いま入会すると、10月に出版される“Frontotemporal Dementias: Emerging Milestones of the 21st Century” (Editors: Bernardino Ghetti, Emanuele Buratti, Bradley Boeve, Rosa Rademakers) (\$199)を無料でオンラインで読むことができる特典が付与されるとの案内がきました。日本において会員になられている方が少なく、ぜひとも多くの方に会員になっていただき、FTDの分野での日本の成果を発信していただきたいと思います。私自身は2018年からISFTDの会員になっています。ご検討いただけますよう、よろしくお願い申し上げます。

現在の本学会のPresidentであるRosa Rademakers, PhD (President, ISFTD)と次期PresidentであるFacundo Manes, MD, PhD (President-Elect, ISFTD)からのご案内を以下につけてあります。

We are calling on you today to (re)join the International Society for Frontotemporal Dementias (ISFTD) and to encourage your friends and colleagues in the FTD community to do the same.

With our lives inevitably more virtual than ever, we believe now is the time to come together to unite as a Society and build an international community of individuals that deeply care about FTD.

To join ISFTD or renew your membership is easy and only takes a few minutes (<http://www.isftd.org/membership.html>). Importantly, membership fees have been significantly reduced to maximally attract new members.

New reduced two-year membership fees (2020-2021) are:

Regular Membership: \$100

Affiliate Membership: \$50

Student Membership: \$25

We further would like to share exciting news with you about the completion of the first volume of the book series planned by ISFTD. This volume, entitled “Frontotemporal Dementias: Emerging Milestones of the 21st Century” (Editors: Bernardino Ghetti, Emanuele Buratti, Bradley Boeve, Rosa Rademakers), represents a distillation of the work of many scientists and addresses the current directions in the clinical, pathological and molecular study of FTD. It provides a moment of reflection on the present state of our knowledge of FTD and a collective vision toward scientific progress. Through collaboration with the publisher (Springer), we have the pleasure to offer a free electronic copy of this volume (the book price is \$199.99), consisting of 18 exclusive chapters, to all ISFTD members. The book will be published in October and will be made available through a secure access link on the ISFTD website.

Thanks to a newly established newsletter committee, we are also pleased to announce that the first volume of our ISFTD Newsletter is expected in August 2020 with additional volumes to follow at least quarterly. This will be our opportunity to keep you updated on the latest discoveries in FTD and to provide a platform for you to share your experiences, publications, regional updates, job opportunities and more!

If you are not a member already - become a member today to take full advantage of these exciting developments. We look forward to serving you!

Sincerely,

Rosa Rademakers, PhD (President, ISFTD)

Facundo Manes, MD, PhD (President-Elect, ISFTD)
